Mindset

For the Mindset Quiz, I received a 48. This suggests I have a strong growth mindset. Even though I apparently have a growth mindset, I am still going to strive to keep this philosophy for the rest of my life. I feel like my parents raised me to have this kind of perspective from a young age, whether they realized it or not. I definitely knew they were different kinds of mindsets because of this. I've especially noticed this during college and watching how others deal with particularly hard assignments, projects, or exams.

After watching the video I want to help people recognize a growth mindset. I'm not sure if I have ever done this before but it's a goal of mine going forwards. I'm going to praise the process, not the result. And enforce the "yet" and "not yet" principle from the video. I'm also going to try to do this to all ages. You're never too old to learn.
